👤 About Me

I am a passionate Full Stack Developer with a strong focus on web technologies and cloud computing. I hold several international certifications, including IBM Full Stack Developer and Microsoft Azure Fundamentals (AZ-900). My hands-on experience spans full stack development, cloud platforms, and API integrations. Committed to continuous learning, I have completed programs like the Cloud Launchpad Program by PwC and GitHub Foundations. My goal is to create innovative, high-performance applications that drive meaningful impact.

🎓 Education

St. Joseph's College of Engineering — Chennai, TN
B.Tech in Information Technology — 2021 - 2025
CGPA: 8.07 / 10

💼 Internship Experience

Bot2Do Technologies — Web Developer Intern — Chennai, Tamil Nadu
August 2024 - Present
- Led a team to develop a crowdfunding platform, optimizing backend performance and improving response time by 20
- Collaborated in real-time features such as chat and notifications using modern web frameworks.
- Worked closely with cross-functional teams to ensure smooth integration of new features.

Shocals Enterprises — Frontend Development Intern — Chennai, Tamil Nadu
January 2024 - February 2024
- Designed user-friendly UI pages using Ionic framework, enhancing device compatibility.
- Collaborated with the backend team to streamline user authentication, reducing login time by 15
- Worked in a team to develop and test cross-platform features, ensuring efficient workflow.

NinjaBytes — Web Developer Intern — Chennai, Tamil Nadu
December 2023 - January 2024
- Collaborated with designers and developers to create a portfolio website with MongoDB and React.
- Worked with a team to implement custom API endpoints, improving user interaction and front-end interactivity.

Projects

ShopifyX — *MERN Stack*
- Developed a scalable e-commerce platform with product management, secure authentication, and payment integration.

CryptoVista — *MERN Stack*
- Built a real-time cryptocurrency tracker displaying market data and historical trends.

Portfolio — *React.js, MongoDB*
- Developed a personal portfolio site with a content management system for real-time updates.

TuneWave — *MERN Stack*
- Designed a music streaming platform featuring user registration, playlist creation, and search capabilities.

⚙ Technical Skills

- **Languages:** Java, JavaScript, C, HTML, CSS, Python
